EDUCATION

SAHYADRI COLLEGE OF ENGINEERING & MANAGEMENT

Bachelor of Engineering

Major in Computer Science

Cumulative GPA: 8.93/10

Relevant Coursework: Data Analysis; Machine Learning; Software Engineering

Mangaluru, KA
Dec 2021 – (Jul 2025)

VIDYANIKETAN PU SCIENCE COLLEGE

Pre-University Education (PCMS); Aggregate: 92.83%

Hubballi, KA
Jun 2019 - Jul 2021

WORK EXPERIENCE

NOVIGO SOLUTIONS

Mangaluru, KA

Data Analyst Intern

Oct 2023 – Nov 2023

- Designed an advanced movie recommendation system using Flask, implementing collaborative filtering and nearest neighbors models to provide highly personalized suggestions, enhancing user satisfaction by 35% through sophisticated algorithm integration and robust handling of no-match scenarios
- Architected and deployed a multi-stage data pipeline, improving data accuracy by 30% and reducing preprocessing time by 50%
- This led to more precise feature extraction and enhanced model performance, achieving a 25% uplift in predictive accuracy and slashing data processing times by 40%
- Redesigned recommendation system effectiveness and dependability through rigorous testing and implementation of advanced data techniques, resulting in a 22% boost in user retention.

UNIVERSITY PROJECTS

SENTIMENT ANALYSIS USING COMPUTER VISION

Feb 2024

- Led a high-impact project, spearheading the development of an advanced sentiment analysis application, resulting in a 30% increase in analysis speed and a 25% improvement in accuracy
- Developed and deployed Convolutional Neural Networks (CNN) and Naive Bayes algorithms; streamlined data preprocessing and model training, enhancing performance by 30% and scalability by 50% in real-time applications
- Achieved a high accuracy rate of 92% in sentiment classification by fine-tuning CNN models and implementing cross-validation techniques

RECOMMENDATION ENGINE

Oct 2023

- Established a scalable recommendation engine with Python and Flask in a team of 4; improved personalization algorithms, leading to a 30% uplift in user retention and a 20% increase in average session duration
- Revolutionized machine learning algorithms: Achieved an increase in recommendation accuracy to 98%
- Enhanced user engagement: Boosted user retention and satisfaction rates by 50%

INVENTORY MANAGEMENT PLATFORM

Jun 2023

- Developed and launched a robust full-stack inventory management system leveraging MERN, HTML, CSS, JavaScript, and Bootstrap; minimized stock discrepancies by 35% and enhanced order processing speed by 50%
- Executed the design, development, and integration of frontend and backend components, enhancing data management and user interface, which resulted in a 40% increase in user engagement and a 25% reduction in data errors

ACTIVITIES

TATA GROUP DATA VISUALIZATION: EMPOWERING BUSINESS (FORAGE)

Jun 2024

IBM DATA SCIENCE PROFESSIONAL CERTIFICATE (COURSERA)

Apr 2024

ENTREPRENEURIAL INTERNSHIP (NOVIGO SOLUTIONS)

Oct 2023

ADDITIONAL

Technical Languages & Frameworks: C; Python; Java; R; SQL; SciPy; Pandas; Flask; Scikit-Learn; TensorFlow

Languages: English; Hindi; Kannada; Beginner level in French
